

Sergio Quintero Mena

Full-Stack Web Developer

Zaragoza, Spain · sqmena@gmail.com · +34 601 058 114 · LinkedIn · Portfolio · GitHub

PROFILE

Full-stack web developer with experience in retail software and building a complete React and Node.js application. Foundations in algorithms and problem solving developed through competitive programming. Interested in building web products with React, TypeScript and Node.js, from the interface to business logic and data.

EXPERIENCE

Cosin Consulting · Zaragoza Sep 2025 - Present
Full-Stack Web Developer

Develop and maintain plugins for RetailPro Prism, a web application for retail sales and store management.

- Contributed to a completed migration across 200+ stores, adapting 20+ AngularJS plugins to changes in the platform's interfaces and behaviour.
- Developed and deployed a Portuguese fiscal reporting plugin as part of the team, migrating a Windows service integration to a Delphi Apache module with MySQL and AngularJS.
- Investigate existing code and platform behaviour to resolve compatibility and integration issues.

Onushop · Huelva Mar - Jun 2025
Full-Stack Developer Intern

Developed software alongside an ERP for self-employed businesses.

- Individually built a restaurant ordering and kitchen web app with React, a Node.js/Express API and Socket.IO rooms for real-time order updates between waiting staff and the kitchen. Used Git for version control.
- Analysed the ERP's PostgreSQL database, added the structures needed by the application and documented the data model in dbdiagram.io.
- Developed ERP features with Delphi VCL.

TECHNICAL SKILLS

Professional

JavaScript, HTML, CSS, AngularJS, Delphi, MySQL, Mercurial.

Internship and projects

React, Node.js, TypeScript, Express, PostgreSQL, Socket.IO, Git.

Personal AI practice

Codex, coding agents and harnesses for planning, development and code review.

PROBLEM SOLVING

ProgramaMe 2024: won the Andalusian regional round with GroupNotFoundException and participated in the national competition.

Timed algorithmic challenges in Java, independent preparation and team code review. A competition for vocational students in Spain.

EDUCATION

English C1 course - In progress

Escuela Oficial de Idiomas n.º 1, Zaragoza · 2026 - Present.

Higher Technician in Multi-platform Applications Development (DAM)

IES La Marisma, Huelva · 2023 - 2025 · Grade: 9.15/10.

Advanced vocational qualification. Non-university higher education, EQF 5.

University Microcredential in Generative AI Implementation and Use in Delphi

University of Salamanca · Nov 2025 - Jan 2026.

ENGLISH

B2 (self-assessed). Technical documentation used at work.
